DETAILED ACTION

This Office action is in answer to the amendment filed 1/17/2006.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the drawings:

Newly submitted figures 1-4 are not in compliance with 37 CFR 1.121(d) since 1) the newly added limitation "LED display" is not shown, and 2) any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

Formal drawings to be submitted.

Allowable Subject Matter

3. Claims 1-12 are allowed.

With regard to claims 1-12: none of the references of record prior to applicant's filing date discloses, teaches, or suggests a battery pack comprising, *inter alia*, a first voltage detecting circuit coupled to the first switch and the battery, wherein the first switch is turned off when the battery voltage

Art Unit: 2838

detected by the first voltage detecting circuit falls below a first predetermined value, a cut-off circuit coupled to the first voltage detecting circuit, wherein the cut-off circuit cuts off the flow of current from the battery to the first voltage detecting circuit when the first switch has been turned off.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
